PERSONAL PROFILE

New and passionate software development, a problem solver motivated to challenge and expand my current skills. I spend most of my time learning and immediately applying new skills into my personal projects. As a hobby, I enjoy collaborating with friends and other developers to create mobile and desktop games. I am eagerly looking for opportunity for my first role to learn from experienced developers and become a part of team.

KEY SKILLS

- C#, JavaScript, Python
- Node.js, React, HTML and SQL (Postgres)
- Git
- Problem-solving
